

At last a book about the Banks and Banking System during and after the campaign of the Alexander the Great. This monumental work -long out of print, a very hard and rare book to find- was prepared by one of the foremost Economist, who writes history. Deep analysis describes the banking system and the professions of the economists, financiers, investors, accountants, bookkeepers, etc. Also includes the contracts and legislation of this period such as laws for banks, interest, loans, bank services, personal accounts, exchange, savings, real estate, loan with goods, personal loans, public loans, taxes, VAT, maritime economy, public works, laws for sales, bonds, mutual funds, leasing, factoring, franchising, auditing, banking codes, etc.
